

# VentureNest Student Mobile App Roadmap

## Student & Incubator Mobile Application Progression Specification

---

### 1. Module Overview & Purpose

The Student/Incubator Mobile Application (Port 3000) empowers early-stage founders to submit pitch decks, complete guided intake, generate business plans, calculate financial runway, and request mentor advice.

### 2. Future Progression Roadmap

- Feature 1: Mobile Camera Document Scanner — Scan physical pitch deck handouts directly into PDF format.
- Feature 2: Offline Draft Synchronization — Edit business plan assumptions offline with automatic sync upon reconnect.
- Feature 3: Push Notifications — Instant alerts when a mentor approves a deck or leaves feedback.
- Feature 4: 1-on-1 Calendar Scheduler — Book live video advisory slots with assigned mentors.

### 3. Interaction Flow with Mentors App

- 1. Student uploads pitch deck to Document Vault.
- 2. Student taps 'Send Request to Mentors App'.
- 3. System links Student Name + Mentor Name in Backend Bridge API.
- 4. Student receives real-time alert once mentor reviews document.
